About Me

As a software developer with over 17 years of experience working with .Net, I have a strong track record of delivering successful projects, ranging from WPF applications to ASP.Net Core microservices and Blazor interfaces. I continually seek out new technologies and ways to incorporate them into my daily work.

Education

b.i.b. International College Hannover

2005 - 2007

Certified Computer Scientist
Software engineering

Project & Work Experience

SINC E-Government & Business Consulting GmbH

since 2023

Project Umweltbundesamt / EWKF

- Implementation of a microservice architecture with .Net Core
- Setup and support of the CI/CD pipelines in Azure DevOps
- Integration of Azure service in the microservice infrastructure

Scanblue Software GmbH

2023 - 2024

Project Scanblue 3D Cloud

- Support of the existing .Net Core Microservice architecture
- Support of the project infrastructure in Azure

Scanblue Engineering AG

2022 - 2023

Project Manager Cloud & Devices

- Co-Head of the Development Department and Team Leader Microservices
- Responsible for the technical alignment of the cloud platform and scanning devices
- Project planning and project management
- Recruiting new talent for the department

Tech Stack

.Net Core / C#

ASP.Net Core

Blazor

HTML / CSS

Angular

Unit Testing / NUnit

SQL

EF Core

PostgreSQL

Azure Cloud

Azure DevOps

Azure Cosmos DB

Docker

Linux
